

FiveF Alka Ltd
alkaline feeding solutions

Alkafibre[®] Alkaforage[®]

▶ protein enhanced fibre

Alkafibre®

Alkafibre is a unique feed produced from the processing of Oatfeed pellets with Home n' Dry. The process releases ammonia which acts on the fibre in the Oatfeed, increasing digestibility and protein levels. In addition, the alkaline nature of the material neutralises rumen acidity.

With acidosis being a real threat to the wellbeing and performance of high producing cows, any product which can help manage rumen pH and provide good digestible fibre is a great feed material to have available.

▶ ideal forage extender

- ✓ Alkaline digestible fibre feed
- ✓ Enhanced protein level
- ✓ Increased dry matter intakes
- ✓ Improved diet utilisation
- ✓ Improved rumen function
- ✓ Easy to handle and feed

ALKAFIBRE TYPICAL ANALYSIS (DM)

NDF	44%
Fibre	20%
Protein	14.5%
pH	8.5%

▶ fibre + starch

Alkaforage®

Alkaforage is achieved by combining Alkafibre and Alkagrain. The resulting product has physical characteristics of 40-50% pelleted material and 50-60% shattered cereal.

Incorporating alkalised products into diets allows you to push for higher performance whilst reducing the risks of dietary acid load.

Alkaforage is an ideal replacement to fill the gap when maize silage / whole crop / Alkalage is unavailable or in short supply. Alkaforage can also be used as a buffer feed in low dry matter, acidic grass silages.

▶ ideal forage replacer

- ✓ Offers an alternative to arable silages for use in TMR's
- ✓ Helps increase dry matter in TMR's with wet, acidic silage
- ✓ Increased dry matter intakes
- ✓ Improved diet utilisation
- ✓ Improved rumen stability

ALKAFORAGE TYPICAL ANALYSIS (DM)

NDF	35%
Starch	30%
Protein	14%
pH	8.5%

FiveF Alka Ltd is represented both nationally and internationally by a network of merchants who are supported by the FiveF technical department.

If you require any information or advice on any aspect of our products & technology, please do not hesitate to contact the head office or your local merchant.
